

# PERIODONTOLOGY AND IMPLANT MAINTENANCE FOR GENERAL PRACTICE

## WHAT YOU'LL LEARN

This course is designed for dental providers and will offer critically appraised, evidence-based information to help them effectively diagnose periodontal disease. The course will provide a chronological overview of the assessment phase of care, including steps for identifying, diagnosing, communicating, treating, and stabilizing periodontitis through non-surgical periodontal therapy. In addition, instrument kits will be available for attendees to review different instrument designs and learn how to set up efficient recall and SRP kits for clinical practice.

## Course Objectives

- Intro to Evidence-Based Decision Making (EBDM)
- Assessment Phase Components
- Periodontal Classification
- Implants Classification
- Implants Maintenance
- Treatment Planning
- Adjuncts to NSPT
- Decision Making Tree
- Set up for Basic Kit
- Set up for SRP kit

## SPEAKER

### Dr. Silky Sharma RDH, Ed.D

Dr. Silky Sharma, RDH, Ed.D is an Associate Professor and an international CE speaker with over 22 years of clinical experience in a perio-focused practice. She specializes in periodontology for dental hygienists, advanced periodontal instrumentation, evidence-based care, and scientific literature.
